Keyguard

The Hoyles Keyguard is a practical and reliable solution for securely storing emergency keys, access control cards and fobs, whilst ensuring they remain easily accessible when required.
Manufactured from durable ABS plastic, Keyguard features a clear, non-hazardous plastic window that allows the contents to remain visible at all times. Designed as a modern, safer alternative to traditional 'break glass' key boxes, it eliminates the risk of broken glass whilst helping to prevent unauthorised access.
In an emergency, a specially designed recess allows the plastic window to be quickly and easily removed, providing immediate access to the key or access card inside. Once removed, the window cannot be refitted, providing a clear visual indication that the Keyguard has been accessed.

Keyguard Range

- **K1000G / K1000R - Standard Keyguard:** Non-alarmed emergency key box designed for secure storage and quick access to keys or access control cards when required.
- **K1010G / K1010R - Alarmed Keyguard:** Features an integral audible alarm powered by a PP3 alkaline battery. Any attempt to remove the plastic window activates the alarm, which can only be silenced by fitting a replacement window.
- **K1020G / K1020R - Monitored Keyguard:** Incorporates a single-pole changeover microswitch with volt-free contacts for connection to external monitoring or alarm systems. Although the contacts are rated at 10A 240vac, they must only be used with low-voltage circuits below 30vdc, as the Keyguard enclosure is not designed to accommodate mains voltages.
- **K1030GR** - **Replacement Windows:** Supplied in packs of four, these replacement plastic windows feature clear graphical instructions, providing easy-to-understand, multilingual operation without the need for written translations.

Specification	K1000G or R	K1010G or R	K1020 G or R
Switch Voltage	N/A	N/A	30vdc Max
Switch Contacts Current	N/A	N/A	10A 240vac Max
Battery	N/A	PP3 x 1	N/A
90db Sounder	N/A	Yes	N/A
Alarm Switch Contacts	N/A	N/A	Yes
One plastic window supplied	Yes	Yes	Yes
Store Keys and Cards	Yes	Yes	Yes

All Keyguards are supplied with one plastic window, fixing screws, wall plugs and fitting instructions.

Internal Chamber Dimensions - 90L x 60H x 10D mm
