

AMG210M SERIES COMMERCIAL GRADE MINI MEDIA CONVERTERS

Commercial Ethernet Solutions

AMG's 210M series mini Ethernet media converters provide flexible options for 100Mbps, Gigabit or 10 Gigabit Ethernet communication across fibre via the SFP or SFP+ port with intelligent configuration features such as link fault pass-through.

[AMG210M Series]

/ OVERVIEW

Designed in an ultra compact housing, these mini media converters are ideally suited for connecting equipment to Ethernet networks over long distances using all types of fibre through the integrated SFP or SFP+ port.

User selectable DIP switches allow for configuration of advanced features such as link fault pass-through, port isolation, jumbo frames, automatic laser shutdown and SFP speed selection.

The 10Gb models support 1G, 2.5G, 5G & 10G modes as well as 3R functions for equalization amplification, clock extraction and integer regeneration for the highest 10G data performance with low transmission jitter.

The mini media converters can be used standalone, wall mounted using the included mounting kit or can be installed within an AMG210C chassis where up to 12 units can be located within a 1U 19inch rack space. The chassis solution provides ultra high density rack mount options.

PSUs are included with each unit and SFPs can either be included (depending on model ordered) or can be ordered separately allowing for selection from AMG's extensive range of SFP(+) modules to suit any application.

/ FEATURES

- Ultra Compact size – ideal for confined spaces, and provides highly cost effective solutions
- Auto-Negotiation – automatically determines the best connection speed
- Wall mountable using the included wall bracket
- Rack mountable using the optional 19 inch 1U chassis
- 100Mb, Multirate 100/1000Mb or 1/2.5/10Gb SFP(+) port supports singlemode and multimode, single or dual fibre options up to 120Km either included or ordered separately
- Single or dual Ethernet copper ports – high bandwidth support up to 10G BASE-T
- Supports Jumbo Frames up to 16K bytes
- Intelligent features supported including link fault pass-through, port isolation and many others.
- AMG 3 Year Support Warranty
