
PABX INTERFACE UNIT

275 PABX INTERFACE

PABX Interface Unit that allows an intercom to be connected to an existing analogue telephone switchboard.

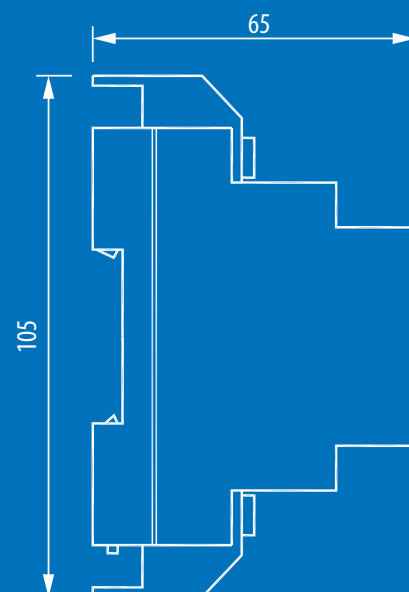

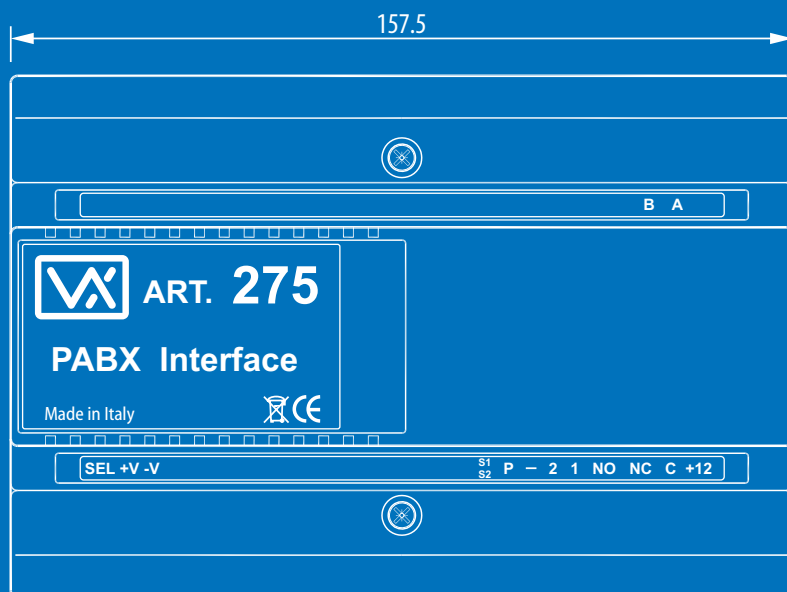

The 275 interface unit enables a Videx intercom panel to be connected to an analogue extension port on a telephone switchboard (PABX). The unit simply connects via two wires to a free extension port allowing the intercom panel to call any other extension or hunt group. When a button is pressed on the intercom panel, the relevant extension or extensions will ring and once answered will allow a two way conversation and the opening of the door by pressing "9" on the telephone keypad.

The 275 can connect directly to a single call button intercom panel or with the use of the 275-10 interface an intercom with up to 10 call buttons.

The 275-Z or 275-D 5 button diode board is required when using the 275-10 interface (*one required for every 5 buttons*).

Key Features include:

The 275-2W is also available to be used with the popular VX2200 and VX2300 digital intercom systems. This model can be used with a single button only and requires the additional bus interface 2280 when used with the VX2200 or the 2380 when used with the VX2300 system.

- Connection to a free extension port on a PABX telephone system.
- Can be programmed to call any other extension or hunt group.
- Can connect up to 10 call buttons using the 275-10 interface module.
- With the 275-2W can be connected to both the VX2200 and VX2300 digital intercom systems using either of the additional bus interface units the 2280 (*for the VX2200*) or the 2380 (*for the VX2300*).

Model	System	Description
275	4K, 8K and VR4K	PABX Interface Unit (connects to an analogue extension)
275-10	All	10 Button expansion module (requires 275-D or 275-Z)
275-D	4K, 8K	5 button diode board (used with 4837 and 8837M amplifiers)
275-Z	4K, VR4K	5 button diode board (used with 4838 and 136 amplifiers)
275-2W	VX2200, VX2300	2 Wire PABX Interface Unit for use with the VX2200 or VX2300 Digital Systems (requires 2280 or 2380)
2280	VX2200	2 Wire BUS Interface Unit for VX2200
2380	VX2300	2 Wire BUS Interface Unit for VX2300
521	All	12Vdc Power Supply
