

## Entry Standard monitor

System specifications

Power over Ethernet (PoE) Yes - IEEE 802.3af class 0

Ethernet bandwidth requirement 1Mb/s multicast per panel during call

Monitors per system ≤1000

TCP/IP Ethernet extension limit 100m/328ft

Cable type CATS

Current consumption 2.6 W (Average) 3.2 W (Max)

Hardware features

Audio system Full Duplex

Screen Colour LED , capacitive Touch screen

Screen size 4.3",16:9
Screen resolution 480 x 272

Door bell input 2 wire, 8v illumination

supported

LED status indicator RGB LED

Answer call - Green

Open door- Flashing Green

Doorbell - Blue

Missed calls & Messages - Red

Back lighting colour White

Action buttons Yes - only in conjunction with Net2 software

Sounder beacon relay Yes, 2A

Line out for T-loop antenna Yes

Software features

Selectable ringtones Ye

Do Not Disturb function Yes

Call snapshot Yes

Built in help menu Yes

'View video' mode Yes Concierge compatible Yes

Call log events 100

Environment

Operating Temperature  $-0^{\circ}\text{C} - +49^{\circ}\text{C} +32^{\circ}\text{F} - +120^{\circ}\text{F}$ 

Moisture resistance No
Vandal Resistance Low
Surface mount Yes

Backbox compatibility UK, Euro, USA

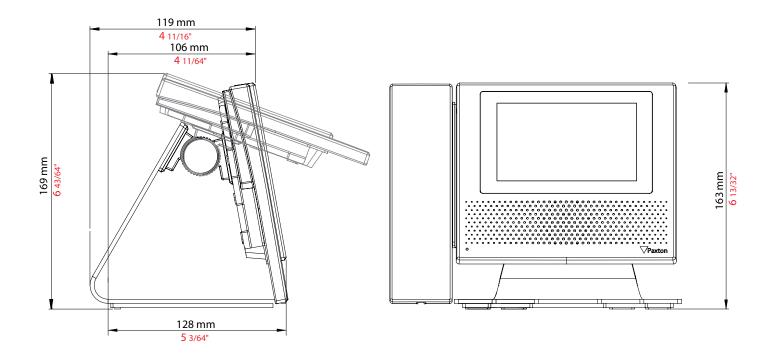

Accessories

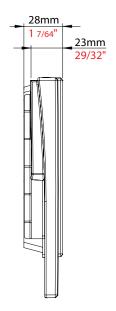

Desktop stand Optional

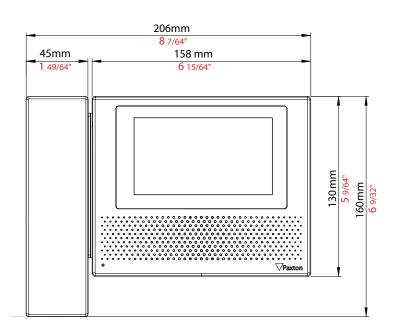

Entry is a door entry system that works standalone or alongside Paxton's Net2 access control, combining door entry with key features of Net2 or as part of our access control and video management solution, Paxton10. Entry consists of 3 components that auto-detect on set up; external panel, interior monitor and door control unit. Entry is a plug and play solution that comes with a range of panel and monitor options and is suitable for a wide variety of sites.

The 2nd generation Entry Standard monitor comes either with or without a handset, and can be wall or desk mounted. Entry components simply interconnect using Cat5 or standard RJ45 terminated patch cables. Entry can also utilise existing network infrastructure for simple installation. PoE technology runs power and data along the same cable to avoid the need for separate power supplies. A visitor initiates a video call via the bell button on the external panel. Visitor access can be granted via the Entry Standard monitor, which features an intuitive capacitive touchscreen user interface.
