

ACT Enterprise

Software Version 2.10

Introduction:

ACT Enterprise software provides all the functionality required to manage your access control system and provides for up to 4,000 doors (100 with ACT Enterprise lite) and up to 50 PC Clients.

New features included in Enterprise 2.10:

- ✓ Support for Bluetooth readers, includes a free iOS and Android Mobile app, licensed per credential.
- ✓ Support for ZKTeco biometric readers. Biometric template is captured in ACT Enterprise software on the attached USB reader, licensed per biometric reader.
- ✓ Extend OSDP support for HID OSDP readers including secure communications using 128bit AES encryption.
- ✓ Usage Limits defines the number of times a credential can be used. For example in a gymnasium scenario a user may have purchased 10 credits to enter the gymnasium, when all credits are depleted the user account is disabled.
- ✓ Akuvox Intercom reads the encode number from the Vanderbilt encoded MIFARE and DESFire EV2 cards.
