

	Intruder	Access Control	CCTV	Fire	General
BM Range		●		●	●

## Overview

The BM range of power supplies is ideal for general purpose applications that require battery monitoring and volt-free fault output for remote signalling of fault conditions.

These units may be used for systems where compliance with EN54-4 is not required.

FOM 4 or 8 can be fitted to give independent fused outputs. See page 49 for more information.

## Features

- 27.6V dc output
- Full rated current to load includes 0.5A battery charging
- Electronic overload protection
- LED indication:
  - Mains status
  - Output fuse failure
  - Output overload or short circuit
  - Battery low or missing
- Volt-free fault output:
  - Mains fail
  - Output fuse failure
  - Output overload or short circuit
  - Battery low or missing
- Mains transient protection
- Screen printing available
- 3 year warranty

## Description

Part Number	Amp Rating	Box Size	Will Fit Battery Size
2401BM	0.5	C	2x12V 7Ah
2402BM	1.5		
2403BM	2.5		
2405BM	5.0
