Double Push Panic Buttons   PAB-S, PAB-W

Manufactured to BS EN50131 these panic buttons provide a modern and neat solution where a double push latching panic
button is required. The PA microswitch is normally closed and will open only when both buttons are pressed.

Then tamper switch is normally closed, if the lid of the unit is removed the tamper switch will go open.

Available in white ABS or black ABS with a stainless steel cover.

Supplied with a reset key
