

## No Touch Request To Release

S1718SNT

Door Status indicator with sounder, No Touch Infra-Red request to release sensor together with one red and one green LED on a single gang stainless steel plate.

Specifically designed for use with our range of Interguard door interlock controllers. When used with an Interguard, the LEDs indicate the status of the relevant door.

The no touch sensor is a hygienic alternative to the traditional push button.

**Specification**

Led Current	20mA per LED @12vdc
