

DRB-200

Double pole relay board

This relay board provides a very convenient method of switching two independent circuits via a controlled on/off input voltage. The relay provides double-pole-double-throw dry contacts, and is commonly known as a 'very handy little relay', or VHRLR.

Features

- Double-pole-double-throw contacts (DPDT)
- Includes self-adhesive pad for fixing, or PCB posts can be used (not included)

Technical Information

- Control input voltage: 12-28Vac/dc
- NO/NC/COM relay contacts (x2)
- Relay contacts rating: 5A @ 24Vdc
- Dims: 68mm(L) x 50mm(W) x 33mm(D)
