

## EM500L

### Adjustable L-bracket for 'standard' maglocks

This L-bracket is designed to enable a 'standard' maglock to be fixed to the door-frame of an outward opening door. Multiple fixing points enable the magnet to be fixed in the optimum position.

#### Features

- Compatible with all SSP standard maglocks
- Satin anodised aluminium finish
- 4 selectable fixing positions for the magnet

#### Technical Information

- 268mm(L) x 50mm(D) x 50mm(H)
- 2 brackets are required for double maglocks
- Suitable for use on outward-opening doors
- 24mm adjustment, in 8mm intervals
