

CCAM SCREENED CABLE

COPPER CLAD ALUMINIUM MAGNESIUM CABLE

CQR are the leading U.K. Manufacturer of cable for Intrusion detection, Access Control and Fire Retardant applications. All our cables are manufactured at our specialist factory in the U.K. We offer a range of cables to meet the latest BS4737-3.30:2015 standard including the latest Low Smoke Zero Halogen.

The majority of the cost of an intruder detection system is in the installation rather than the equipment. Therefore it is vital that the highest quality cable is used to ensure the integrity and longevity of the system.

This UK manufactured cable has cores of 7 strands of 0.2mm CCAM Copper Clad Aluminium Magnesium wire and is sheathed in Type 1 PVC and is suitable for shorter runs.

CCA Screened cable has an aluminium foil wrapped round the cores. A screened wire is also present along the entire length of the cable. Available in white or brown.

UK Manufactured to **BS4737-3.30:2015**
Type 3.

Specifications

Core: 7 x 0.2

Resistance: 147.9 Ohms/Km

Conductor Material: Tinned stranded 15% CCAM

Conductor Area: 0.22mm²

Current Rating: 1 Amp

Max Voltage: 50V

Core Insulation: PVC TI.1

Sheathing: PVC Type 6

Operating Temp: 70°C

Screening: Aluminum / pet foil

Drain wire: Soft tinned copper

Available cable sizes

2 Core

4 Core

6 Core

8 Core

12 Core

Available in White or Brown

- 20 Years experience of alarm cable manufacturing in the United Kingdom
- Wide range of cable types; standard, screened, low smoke & fume, twisted pair and power & data
- User friendly, easy to strip & pliable in use

Address: CQR Fire & Security, 125 Pasture Road, Moreton, Wirral, CH46 4TH, UK.
