

DX3301-T0/DX3300-T0/ EX3301-T0/EX3300-T0 Series

Dual-Band Wireless AX1800 VDSL2/Ethernet IAD/Gateway

The Zyxel DX3301-T0/DX3300-T0/EX3301-T0/EX3300-T0 Series provides high-speed internet access with QoS support to meet the worldwide market demand for triple-play services. With the built-in 2x2 802.11ax WLAN function and Zyxel MPro Mesh® Solutions, the Series provides seamless Wi-Fi experience and superior, feature-rich Wi-Fi connectivity for service providers to deliver high-performance internet access services.

Benefits

Wi-Fi 6 technology for superior lag-free performance

Supporting the latest Wi-Fi 6 (11ax) standard, the Series offers speeds of up to 1200 Mbps* with 2x2 802.11ax and 574 Mbps* with 2x2 802.11n. The uplink MU-MIMO, Orthogonal Frequency Division Multiple Access (OFDMA) and beamforming technologies empower the Series to deliver high speed internet for multi-streaming data access and optimal Wi-Fi experience without dead zones.

* The maximum wireless data transfer rate is derived from IEEE standard 802.11 specifications. Actual data transfer rate will vary from network environment including: distance, network traffic, building site materials/construction, interference from other wireless devices, and other adverse conditions.

Zyxel OPAL firmware achieves superior flexibility and faster time-to-market

Compliant with the same OPAL firmware trunk applied in all Zyxel CPEs, the Series inherits a rich, field-proven feature set for guaranteed unchanged user experience even after migrating to the new devices.

Datasheet [DX3301-T0/DX3300-T0/
EX3301-T0/EX3300-T0 Series](#)

Wi-Fi 6 (11ax) for superior performance and coverage

Zyxel MPro Mesh® Solutions (compliant with EasyMesh standards)

Remote management via TR-369/TR-069/TR-181

NAT, firewall with SPI and DoS for better security

VoIP SIP protocol with 3-way conference calls

Multiple SSIDs for various service deployment scenarios

Zyxel-developed OPAL for superior flexibility and faster time-to-market

Compact and foldable design

Premium MPro Mesh® for whole-home coverage

Featuring EasyMesh fully compliant Zyxel MPro Mesh® Solutions**, the Series enhances your subscribers' experience by providing self-adapting, easy-to-manage whole-home Wi-Fi coverage, while reducing your service OPEX.

** Combining DX3301-T0, DX3300-T0, EX3301-T0 and EX3300-T0 with the WX3100 Wireless Extender is advised for the ideal mesh network performance.

Quality of Service (QoS) support

With QoS features, service providers can freely design their QoS policies and prioritize mission-critical services such as IPTV and VoIP based on their service plan offerings. This improves network efficiency and productivity that enable service providers to offer a real multi-play solution to meet the residential user needs.

TR-369/TR-069 remote management for lower OPEX

Compliant with TR-369/TR-069 standards, the Series significantly simplifies deployment complexity and lowers operating and maintenance costs. The additional support to the latest TR-181 issue-2 data model also enhances service providers' visibility on subscriber LAN networks to offer improved customer assistance.

Compact and foldable design

Zyxel commits to a sustainable future and to improving the environmental well-being of the community. The Series adopts foldable stands with an ultra-thin exterior case to shrink each package volume, which improves pallet utilization by approximately 46% for lower carbon emissions.
