

## Product Selection Guide

### Smart access control and door entry systems

## Why work with us?

### Easy to quote

- Build your system one door at a time
- A range of products to suit any site requirement
- Scalable system – add doors when the budget is available

### Easy to install

- Plug and play solutions that connect directly to the network
- Mix and match Net2 products – they are all designed to work together seamlessly
- Clear instructions and colour coded wiring labels

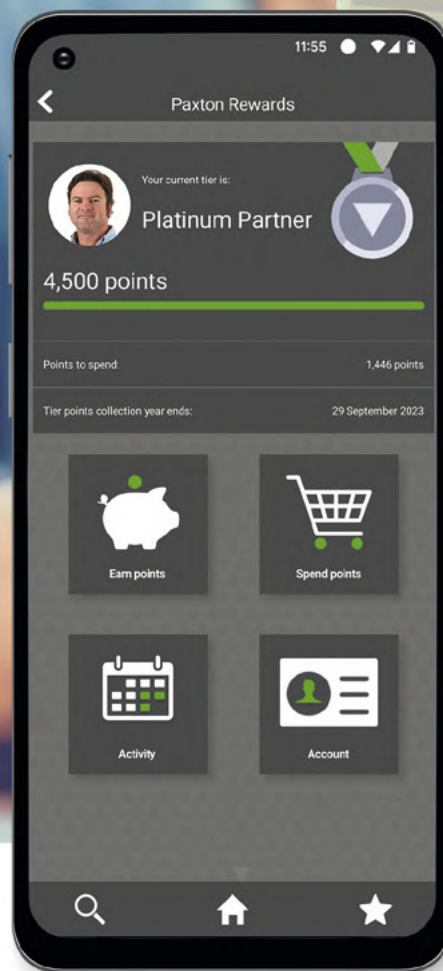

### Easy to work with

- Industry-leading technical support
- 5-year guarantee and three step returns policy
- Free software upgrades and no multiple licence fees

## 5 Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

- 6 Wired Controllers - Net2 Plus
- 7 Wireless Controllers - Net2 Nano
- 8 Building Control - I/O Board
- 9 Net2 Readers
- 13 Net2 Tokens
- 15 Net2 Software
- 16 Accessories & Other Components
- 18 Demonstration Products

## 19 Access Control & Video Management

Our single platform solution combining access control and video management. Paxton10 is an ideal solution to futureproof site security.

- 20 Paxton10
- 21 Integration
- 22 Cameras
- 24 Readers and Tokens
- 25 Software and Apps

## 26 Door Entry

Our door entry system, Entry, is an advanced PoE door entry system with built-in access control capabilities.

- 27 Entry System Components
- 30 Demo Cases

## 32 Wireless Door Handles

PaxLock Pro is a wireless, electronic battery powered door handle. It is compatible with Net2 and Paxton10, or works in Standalone mode.

- 33 PaxLock Pro
- 34 PaxLock Pro components

## 36 Standalone Access Control

Our standalone access control is a non-networked system made up of readers or simple door controllers located at each door. Standalone systems are administered via the use of tokens or card packs.

- 37 Switch2
- 38 Switch2 Readers
- 41 Compact
- 43 Standalone Tokens
- 44 Standalone Accessories

- 46 Additional Information
- 47 Distributors - Where to Buy

## Welcome

**This Product Selection Guide is designed to help you to choose the right products to build up an access control system.**

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

## What's new?

### Paxton10 CORE & PRO Cameras

Our most powerful system, Paxton10 is now suitable for more installations than ever before with the introduction of the CORE and PRO Series cameras. Two new series of Paxton10 cameras to choose from, mix and match to tailor your own solution.

#### Great value CORE Series:

Mini Bullet, Mini Dome and Turret 4MP cameras with 64GB of in-built edge storage

#### High performance PRO Series:

Mini Bullet, Vari-focal Bullet and Turret 8MP, 4K cameras with a huge 256GB of edge storage

## See page 22

### PaxLock Catalogue Updates

Following recent updates to simplify our PaxLock Pro portfolio, you can now find all our PaxLock products on **page 32** of this Product Selection Guide. Every PaxLock Pro is now compatible with both Net2 and Paxton10, as well as working in standalone mode.

# Networked Access Control

**Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.**

- ▶ Net2 is Paxton's flagship access control product
- ▶ A powerful networked system that addresses the needs of the mid-market
- ▶ Modular approach for simplicity and scalability
- ▶ Simple intuitive software
- ▶ Range of features that move beyond basic access control
- ▶ A complete solution that encompasses wireless and door entry

## Net2 plus Wired Controller

- ▶ A networked IP ready single door controller
- ▶ On-board TCP/IP connection allows direct connection to a network
- ▶ Can connect together with dedicated RS485 network

## Product tutorials

We have a series of Net2 software tutorial videos available, they illustrate how you can get the very best from the Net2 software, and offer your customers more from their access control system.

**Watch them here:**  
<http://paxton.info/3017>

- ▶ Anti-passback
- ▶ Landlord Tenant
- ▶ Security Lockdown
- ▶ CCTV, Fire and Intruder alarm integration
- ▶ and more...

## Building Control - I/O Board

**When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.**

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to lifts, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- ▶ Connect directly to a LAN/WAN only
- ▶ Enable integration with lifts, lighting, heating and more
- ▶ 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.

## Access Control and Video Management

**Paxton10 is a single platform solution combining access control and video management. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is a versatile solution suitable for all building types and sizes.**

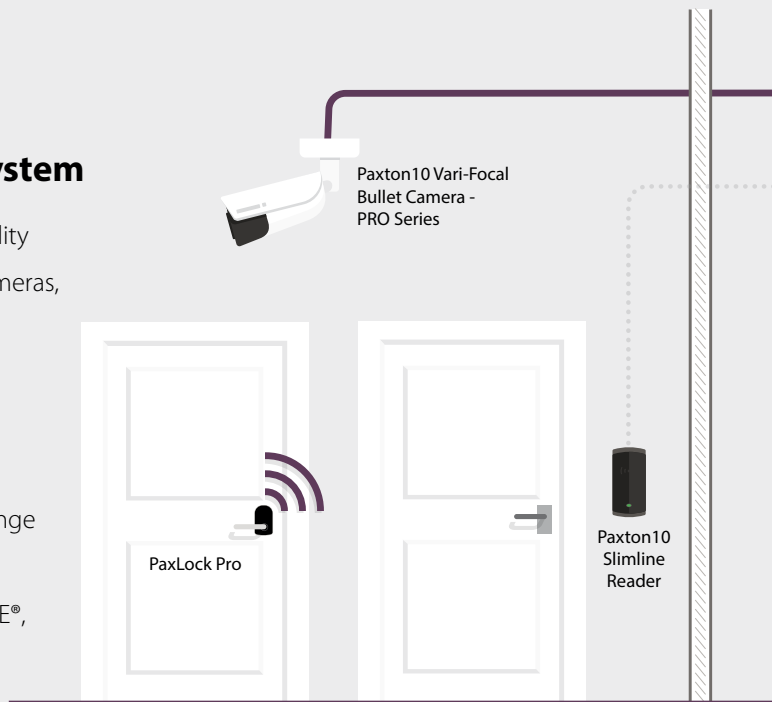

- ▶ Easy to quote and configure, build a complete system with just five components
- ▶ Manage multiple sites on a single system from anywhere with an internet connection
- ▶ Web-based user interface with no configuration required
- ▶ Paxton10 PRO and CORE cameras give you flexibility and choice; the system is also compatible with third-party IP video cameras
- ▶ Custom dashboards to suit any user requirements
- ▶ Built in **Bluetooth®** to use phone or smartwatch smart credentials.
- ▶ Works seamlessly with Entry and PaxLock Pro

# Access Control and Video Management

## Paxton10 Access control. Video management. One system

- ▶ Single door controller architecture for ease of install and flexibility
- ▶ Feature rich video management solution embedded in the cameras, no third-party integration required
- ▶ Built-in Bluetooth® wireless technology, supports free of charge smart credentials
- ▶ Fully compatible with Entry, our award-winning video and audio door entry solution
- ▶ Fully compatible with PaxLock Pro, our wireless door handle range
- ▶ Distributed intelligence to increase reliability
- ▶ Powerful multifORMAT readers and keypad, reads Paxton, MIFARE®, HID™ Prox, EM, FeliCa, NFC and DESFire token technology

Paxton Key App

## Paxton10 Software

**A web-based user interface that is intuitive and easy to use.**

Accessible from any device with an internet connection, the interface makes remote site management simple. The software comes as a native part of the system with a Paxton10 server. It has a range of intelligent features to maximise efficiency and optimise the combined access and video management solution.

- ▶ Web-based software – no installation, plug-ins or upgrading required
- ▶ Free of charge – simple online updates with no ongoing charges
- ▶ Suitable for touchscreen and desktop devices
- ▶ Optimised for use on PCs and tablets
- ▶ Low battery alerts, easy to monitor back up battery state
- ▶ Flexible and secure remote access

### Features:

**Dashboards** - Customised dashboards to suit any user requirements

**Reports** - Powerful reporting engine where all system events and videos can be reviewed

**Site plans** - For the visual management of the system

**Tutorial wizards** - Support new and existing users to make full use of the software

**People** - Manage user permissions, credentials and information

**Rules** - Set permissions, time profiles, triggers and actions and much more

**Devices** - Configure and manage the devices in a building

## Paxton10 Apps

### Paxton Connect

**Flexible site management**

The Paxton Connect app provides easy and flexible site management for Paxton10. Containing easy to use features in one smart user interface, Paxton Connect enables you and your customers to manage multiple sites remotely from a smartphone.

#### Features:

**People** - Manage user permission, credentials and information

**Reports** - Access all system reports from your smart device or tablet

**Devices** - Configure and manage all devices on site

**Dashboards** - Access custom dashboards for personalised system overview

### Paxton Key

**Utilise smart devices as access tokens**

The Paxton Key app allows system users to make use of their smartphone, smartwatch or tablet in place of traditional tokens. These are called smart credentials and can be issued free of charge. Utilising the built-in Bluetooth® wireless technology in Paxton10 readers, the smart device can securely communicate with the Paxton10 system to grant or deny access. Paxton Key also enables the user to carry out predefined building management functionality – such as setting the intruder alarm.

Download the free apps from the **App Store** or **Google Play**

## Door Entry

**The Entry system works standalone or alongside Net2 or Paxton10 to combine door entry with access control. Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.**

- ▶ Just three components - monitor, panel and door controller
- ▶ Premium, standard, audio, and vandal resistant solutions available
- ▶ Intruder alarm integration - set the alarm in Net2 from the Entry panel for extra convenience
- ▶ Pan/tilt camera functionality to capture an angled view
- ▶ Low light sensitivity camera - ideal for use day or night
- ▶ SIP compatibility - the door can be answered from smartphone, tablet or PC
- ▶ Add a secondary IP camera for higher security sites

## Entry

### A smart, simple door entry system.

- ▶ Panels available in three variants: the Entry Touch panel with an advanced 7-inch colour touch screen, Entry Standard panel in anthracite grey and the Entry VR panel in super durable stainless steel
- ▶ All variants available in flush, surface and rain-hood versions - suitable for a range of environments
- ▶ Three monitors available, including premium, standard and audio, to create a custom solution for any site
- ▶ Personalise the Entry Touch panel, Premium monitor and Standard monitor with multiple theme options and contact images for quick visual recognition
- ▶ Video voicemail, enables visitors to leave a video message
- ▶ Add a secondary IP camera for higher security sites
- ▶ Reads Paxton and MIFARE® token technology

**Standalone Entry system does not require connection to a network or server**

## Entry also works Standalone

Our video door entry system also works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to an online Net2 solution, with no hidden costs.

- Enable offline token-based access control on any Entry site
- Simple user management utilising Paxton's standalone functionality
- Upgrade existing standalone sites with video door entry for extra convenience
- Combine with other Paxton standalone products to build an entire easy-to-use system supporting the same tokens across the site
- See Standalone card packs on [page 43](#)

### Watch the Entry Video

Show your customers the benefits of our simple video door entry solution in just two minutes, with the Entry video.

- ▶ Featuring the whole Entry range, including the touch panel and premium monitor
- ▶ Just 3 components that auto-detect on set up
- ▶ Discover a scalable solution that suits a variety of locations

# Wireless Door Handles

**PaxLock Pro is compatible with Net2 and Paxton10, or works in Standalone mode. PaxLock Pro is a wireless, electronic, battery powered door handle. The design is compatible with any DIN standard lock for a quick and simple installation.**

- ▶ Flexible upgrade path from standalone to networked, allowing your system to grow to suit your needs
- ▶ Internal and external variants available
- ▶ IK10 impact rated, external variant is also IP55 rated (reader side only)
- ▶ Supports multi-token technology, including Paxton, MIFARE®, Bluetooth®\* and HID®Prox
- ▶ EN179 Certified for emergency exits and FD30 and FD60 Certified for fire doors

\*Bluetooth® compatible with Paxton10 only

## PaxLock Pro Wireless Controller

- ▶ Works standalone, with Net2 or Paxton10
- ▶ Simple upgrade path from standalone to networked
- ▶ Dual-frequency proximity reader
- ▶ EN179 Certified for emergency exits
- ▶ FD30 and FD60 certified for fire doors
- ▶ Compatible with DIN standard locks

Example PaxLock Pro with a Net2 system

### NEW SALES CODES

900-610BL

## New: Simplified Sales Codes for PaxLock Pro

There is now one unified version of the PaxLock Pro that is compatible with both Net2 and Paxton10, as well as working in standalone mode. This means there will be one sales code for the PaxLock Pro, regardless of which system you plan to use it with.

PaxLock Pro - Euro DIN18251 door installation jig

Sales code  
900-080

**Please note:** It is recommended that PaxLock Pro is installed with a lockset with key override to ensure access can be gained in the rare event of a unit failure.

# Wireless Door Handles

## Demo case PaxLock Pro

The demo case comes with everything you need to show your customers the PaxLock Pro in action.

- ▶ Demo Stand with EN179 escape sash lock
- ▶ White External PaxLock Pro
- ▶ Standalone Token pack (x2 Tokens)
- ▶ Batteries

Sales code  
900-690

## Standalone Access Control

**Standalone access control is the simplest way to secure and control access through doors around your building. If you're looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.**

- ▶ A non-networked access control solution
- ▶ Simple and unique card management system
- ▶ Internal (Compact)/external (Switch2)
- ▶ Suitable for small to medium sized premises, or any site looking to secure a small number of doors
- ▶ Entry and PaxLock Pro now work in standalone mode

## Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users' movements provided by a PC based access control system.

Switch2 controller

Sales code  
405-321

Switch2 controller -  
12V 1A PSU, Plastic housing

Sales code  
242-166

## Entry

Our video door entry system works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to work with Net2 or Paxton10, with no hidden costs.

See [page 31](#) for more information

## PaxLock Pro

PaxLock Pro is our wireless access control solution in a battery operated door handle. It can be installed in standalone mode for use on sites not requiring the additional functionality of an online system. It's flexible upgrade path from standalone to networked creates a solution which can evolve with the needs of your customer.

See [page 33](#) for more information

## Free installer training

We offer practical training for installers for our complete range of networked, standalone and door entry products. Sessions are designed to provide you with the essential knowledge needed to install Paxton products quickly and efficiently.

- ▶ Ensure accurate installation
- ▶ Reduce time on site
- ▶ Courses are free of charge
- ▶ Materials and equipment provided

For more information and to book a session, go to <http://paxton.info/1940>.

End-user training is also available; for more information and pricing, contact [training@paxton.co.uk](mailto:training@paxton.co.uk).

## Industry leading technical support

Call Paxton and you will be put straight through to our expert support team, based at Paxton House. Our friendly team are available from 7am-7pm Monday-Friday, and 9am-1pm on Saturdays.

Call : 01273 811011

E-mail : [support@paxton.co.uk](mailto:support@paxton.co.uk)

## Sales literature

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification. All documentation is available to download from our website at <http://paxton.info/474>.

## Case studies

Find out how our systems can be adapted to meet a range of diverse requirements by reading our latest case studies. We have a range of examples covering education, healthcare, retail, leisure, commercial and public buildings.

**See our latest case studies here:**

## Paxton 5 Year Guarantee and Hassle Free Returns Policy

We offer a five year guarantee on all our products\*. If a problem arises, follow these three simple steps and we will get your return sorted:

1. Call into Support if a problem arises on site, Support will then troubleshoot the issue.
2. If the issue cannot be solved, you will be supplied with a returns number.
3. Within 30 days you can either:
  - a. Send the product directly to Paxton with the returns number for an exchange
  - b. Return to your distributor for an exchange

\*Unless otherwise stated

## Distributors - Where to Buy

Our UK distributors are listed below. We regularly review their stock and make sure that it is up-to-date, correctly stored and free from defects. To ensure the quality of your Paxton system, we advise that you purchase only through a franchised distributor.
