

NDAA Compliant Motorised Varifocal IP Turret Camera

VIP-T5MP28V12IRME

KEY FEATURES

NDAA Compliant

5MP Varifocal Turret

Low light sensitive

IR up to 40m

Motorised lens

IP67 ingress protection

H.264/H.265 dual streaming

ONVIF compliant ONVIF Profile S, G and T

Edge Storage -MicroSD, up to 256GB

Corridor mode

Built-in Microphone

Cross Line and Intrusion analytics

Vista's VIP series of IP cameras are fully NDAA compliant, allowing you peace of mind in offering one, consistent range that satisfies requirements across both private business and public sector projects.

Our VIP-T5MP28V12IRMe motorised varifocal turret comes with a simplified set of core features suitable for entry level installations. Available in 5MP, the camera has an IP67 rating against water and dust. It is versatile and remotely adjustable from your phone or NVR, making it a great choice for small to medium environments.

The camera delivers dual streams in multiple formats including H.264, so you can optimise your video settings based on application. The latest H.265 technology reduces the levels of bandwidth and storage required by the recording solution.

It includes useful analytic benefits - cross line and intrusion, and event capabilities motion detection, ultra motion detection, tampering alarm and audio detection.

Other features include an integrated motorised lens, low light technology, IR illumination to 40 metres, MicroSD card edge storage and PoE are also included.

Why not look at the rest of the VIP series of cameras and their accompanying VIP series of IP NVR recorders - also NDAA compliant.

To see Vista's complete range of IP and analogue video surveillance solutions along with accessories, please visit www.norbain.com/brands/vista.

* To scan the QR code, make sure your phone/device has a suitable reader. Most modern Android and iOS smartphone cameras will automatically scan the code and provide the product's URL link, which will open from the device's web browser.
