

VKA PUBLIC VIEWING MONITOR RANGE

building awareness, changing behaviours

Overview of the PVM range

The Vista PVM range provides businesses with an effective way of discouraging unwanted behaviour whilst helping create a safe and welcoming environment.

The range is ideal for a wide variety of applications including protecting high risk areas in retail environments, preventing tailgating and buddy punching, ensuring health & safety requirements are adhered to and creating an enhanced customer experience.

REPORTED FACTS

Up to 50% reduction in shrinkage and 30% increase in profits*

BENEFITS OF THE RANGE

- Reduces shrinkage
- Protects profits
- Discourages unwanted behaviour
- Encourages desired behaviour
- Creates a secure, trusted environment
- Allows simultaneous CCTV and advertising functionality
- Enhances customer experiences
- Additional revenue opportunity through supplier adverts or videos
- Display as a full screen or split screen view on decoder models

THE MONITORS ARE AVAILABLE IN TWO TYPES - EITHER WITH IN-BUILT, HIGH RESOLUTION CAMERAS, OR WITH AN IN-BUILT 16 CHANNEL IP CAMERA DECODER.

HOW THE CAMERA MODELS WORK

Using motion detection, the in-built camera is activated when an individual approaches the monitor. The resulting high-definition image shows live footage of the individual and their actions in the immediate environment.

Individual approaches camera

Footage observed by individual on screen and recorded remotely

PVM displays business logo or static advert screen

Live view mode triggered to display custom warning message

Unwanted behaviour discouraged or desired behaviour encouraged

DECODER MODELS

The decoder options can display images from up to 16 cameras or video files. They are ideal for displaying advertising information or informative media content at the same time as offering CCTV security functionality. Video files can be displayed as a full screen or as a segment within a split screen view. Like the camera single screen models, the content can be shown permanently, activated by motion detection or by using video analytic triggers.

Decoder screen layout variations:

16 channel split screen display

Picture in Picture (PiP): full screen advertising video with 1 small live camera segment

Quad display: 3 live cameras and 1 advertising video segment

advertising video

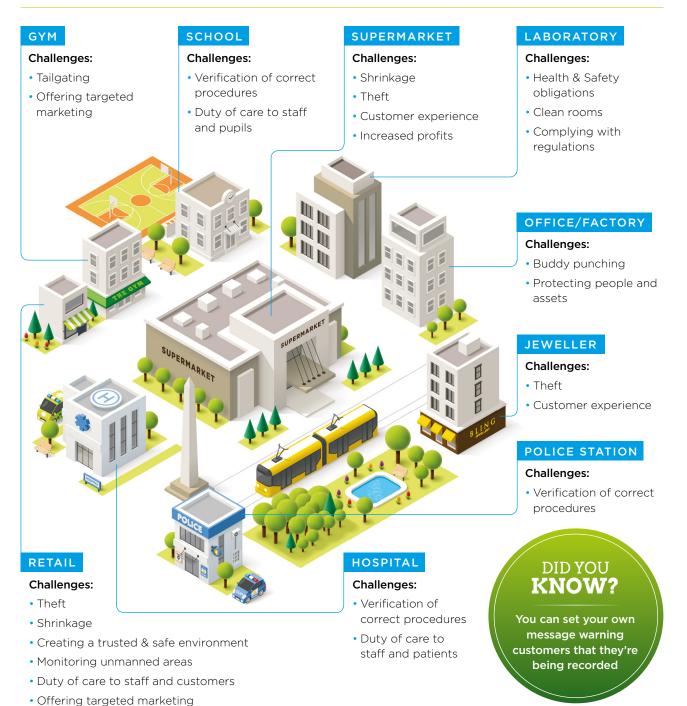

Creating a trusted environment

Creating trust between a business and their customers is key to retention, loyalty and, ultimately, profits. Customers want to do business with a company they can trust and the PVM range can be a useful tool in helping create a quality customer experience. By discouraging unwanted or antisocial behaviour, it provides a better and more trusted environment for those customers whom businesses most want to nurture. It can also be used to provide additional information, tutorials or targeted offers to customers, enhancing their shopping experience and helping create a competitive advantage for the business.

DID YOU KNOW?

All PVMs are powered over PoE, so no additional mains supply is required. They are also compatible with 3rd party devices, e.g. strobes, alarms

APPLICATIONS

VK VIEWING PUBLIC VIEWING MONITOR RANGE

* To scan the QR code, make sure your phone/device has a suitable reader. Most modern Android and iOS smart phone cameras will automatically scan the code and provide the product's URL link, which will open from the device's web browser.
