## PRODUCT DATA

# VMS-RGB-WB Wall Mounting Bracket for VMS-RGB-10A Signs

## Product Description

All VMS-RGB-10A signs are fitted with mounting strips to allow them to be mounted on posts with generic post mounting brackets. For mounting on flat surfaces such as walls, the VMS-RGB-WB wall mounting brackets can be purchased separately.

The VMS-RGB-WB-STD is used for mounting the VMS-RGB-10A-STD standard single level VMS. The larger VMS-RGB-WB-TX bracket is designed to support any of the VMS-RGB-10A-Tx range of multi-level signs.

The robust wall-mounting kit enables the VMS to be securely mounted to a flat surface and provides tilt adjustment. It comes as an easy-to-assemble kit comprising a wall-mount frame and two adjustable supports that fit to the rear of the VMS, together with the requires fastenings for the assembly. It does not include wall fastenings.

## Features

▶ Fits to the integral mounting strips on the rear of the sign

▶ Robust wall mounting frame

▶ Easy to assemble and fit

▶ Tilt adjustment

## Specifications
