10 zone control panel

The i-on10 is a 10 zone, bells-only (audible alarm) wired intruder alarm panel. It is suitable for simple, entry-level burglar alarm systems to protect homes and small commercial installations.

The i-on10 is a Grade 2 control panel with 10 zones on board and feature-packed to deliver you real benefits.

Performance bus allows the fitting of up to 4 keypads. The i-on programming is menu driven for ease and reduces programming issues.

There are a choice of i-on keypads to connect to: see the compatibility chart.

At a glance...

- Ten zones
- 10 user codes
- Range of keypad options
- Uses same programming menus as the i-on range
