

PUBLIC VIEWING MONITORS

building awareness, changing behaviours

Overview

The Vista PVM provides businesses with an effective way of discouraging unwanted behaviour whilst helping to create a safe and welcoming environment.

Ideal for a wide variety of applications including protecting high risk areas in retail environments, preventing tailgating and buddy punching, ensuring health & safety requirements are adhered to and creating an enhanced customer experience.

BENEFITS

- Reduces shrinkage
- Protects profits
- · Discourages unwanted behaviour
- · Encourages desired behaviour
- · Creates a secure, trusted environment
- Allows simultaneous CCTV and advertising functionality
- Enhances customer experiences
- Additional revenue opportunity through supplier adverts or videos
- Display as a full screen or split screen view on decoder models

REPORTED FACTS

Up to 50% reduction in shrinkage and 30% increase in profits*

HOW THE CAMERA MODELS WORK

Using motion detection, the in-built camera is activated when an individual approaches the monitor. The resulting high-definition image shows live footage of the individual and their actions in the immediate environment.

02

Individual approaches camera

Live view mode triggered to display custom warning message

04

Footage observed by individual on screen and recorded remotely

05

Unwanted behaviour discouraged or desired behaviour encouraged

Creating a trusted environment

Creating trust between a business and their customers is key to retention, loyalty and, ultimately, profits. Customers want to do business with a company they can trust and the PVM range can be a useful tool in helping create a quality customer experience. By discouraging unwanted or antisocial behaviour, it provides a better

· Duty of care to staff and customers

· Offering targeted marketing

and more trusted environment for those customers whom businesses most want to nurture. It can also be used to provide additional information, tutorials or targeted offers to customers, enhancing their shopping experience and helping create a competitive advantage for the business.

DID YOU KNOW?

PVMs are powered over PoE, so no additional mains supply is required. They are also compatible with 3rd party devices, e.g. strobes, alarms
