

# Vision 24V ac Encapsulated Power Supply

## Product Overview

Elmdene's Vision 24V ac encapsulated power supply have been designed specifically for CCTV applications.

The unit features a 230V ac mains input voltage, featuring electronic and thermal shutdown.

The units have a neat and compact design and come fitted with a moulded UK mains plug.

Elmdene's Vision range feature highly stable, closely regulated 24V ac outputs at full rated current to load. The products are designed to provide reliability and performance with low maintenance and operational costs.

## Features

- Fully regulated 24V ac output
- Full rated current to load
- Electronic short circuit protection
- Thermal protection (shutdown)
- 230V ac mains supply (+10% / -15%)
- Fixing lugs for surface mounting
- Fitted with moulded UK 13A plug
- Stripped ends on flying lead
- 3 year warranty

## Approvals

CE mark  
RoHS Compliant

## Part Numbers

Part No	Amp Rating
VR241000EB	1.0A

VR241000EB

## Technical Information

Mains input	230V ac @ 50Hz
Output	24V ac nominal
Operating temp.	-10°C to 40°C @ 95% RH

## Product Dimensions and Weight

VR121000EB  
L130 x W70 x D60mm  
Weight: 970g

3 Year Warranty.
